

2016 In Biblical Prophecy

As you can see from my study of Daniel's 70 Weeks, and the Olivet Prophecy, 2016 is a very significant date.

This is just a postscript to those studies, pending further insights.

I caught this point watching Bo Polny. There are 8 252 years cycles from 0 AD to 2016.

$$8 \times 252 = 2016$$

252 years is obviously a function of 2520 years, the time of the gentiles

Babylon fell in 539 BC according to most historians. But some also argue for 538 BC.

538 BC looks to be the correct date though. From 538 BC to 2016 is 2553 years.

$$2553 = 69 \times 37$$

69 is the number of weeks Judah was under foreign subjugation prior to the week of wrath.

37 is number of generations that Israel existed as a Nation.

37 is also a factor in Mystery Babylon, as $666 = 37 \times 18$.

We can I believe expect the fall of Babylon, (Mystery Babylon), this very year.
